

# Family Homework Project

August

Dear Parents,

Approximately once a month, I will be sending home a special project for your child to complete at home. The family homework projects are special because your child gets to work with you and other family members to complete a fun activity. This month's project is called "All About Me".

I am sending home an outline of a child. Please help your child decorate this cutout to reflect him or her. You may include items showing his or her favorite thing to eat, favorite toys, favorite books, family members, etc. Have fun and be creative! You may use anything to help your child (magazine pictures, paint, drawings, etc.). Your child may cut out the outline, but is not required to. Just make sure it is labeled with a name 😊.

All projects should be returned no later than \_\_\_\_\_.  
This is the date that we will share our projects in class. I can't wait to learn about the important things in your child's life.

Sincerely,
