

Calling All Transportation Vehicles!

Dear Parents,

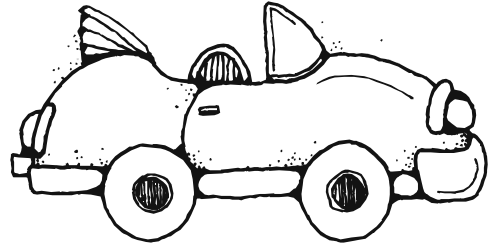

We will be learning about transportation as our next unit of study. If your child has any toy cars, trucks, boats, motorcycles, planes, etc. at home, and you wouldn't mind sending them to school, you may send them to class with your child. We are studying all types of

transportation from hot air balloons to submarines, tractors to rockets.

Please send in no more than 4 vehicles labeled with your child's name. Please do not send in large toys like Barbie cars and remote control vehicles. These toys will be shared in class during activities and centers and will be sent home when our unit is finished.

If there are any toy vehicles that you would like to clean out of the toy box and donate to our classroom permanently, we would love to use those too. Please put them in a separate bag and label them as a donation.

Thank you for your support!
